The main content area is divided into several sections. The 'For you' section contains six tiles: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app), 'Create a custom dashboard' (Create a shareable dashboard that you can customize with widgets, scope, and your own layout), 'Browse solution tutorials' (Learn how to build, deploy, and scale real-world solutions on IBM Cloud), 'Explore IBM Cloud Shell' (Try a command-driven approach for creating, developing, and deploying a web project), and 'Get started with Watson Discovery' (Get up to speed on Watson Discovery with step-by-step tutorials, deep-dive videos, and complete examples of working code). Below this is a 'News' section with articles like 'Announcing IBM Cloud Pak for Network Automation Version 2.4' and 'No Prerequisites for IBM Cloud Certifications'. IBM Watson IoT Platform

The screenshot shows the 'Browse Devices' page in the IBM Watson IoT Platform. The page has a navigation bar with 'Browse', 'Action', 'Device Types', and 'Interfaces'. Below this is a 'Browse Devices' section with 'All Devices' and 'Diagnose' tabs. A message states: 'This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.' Below this is a table with the following data:

At the bottom of the table, it says 'Items per page 50 | 1-3 of 3 items'. On the right, there's a 'Device Simulator' toggle and a '1 Simulation running' status bar.
